**Welcome to Hickory Star Village and Marina, located on beautiful Norris Lake in the Tennessee Valley.** With over 800 miles of shoreline, fishing, water skiing, and house boating are a way of life on the blue-green water that flows from the mountains. Norris Lake is the largest and oldest of the TVA lakes and is surrounded by protected refuges that offer a variety of wildlife. With its clear deep water, it produces excellent catches of rock fish, walleye, and bass, as well as the usual species found in other area lakes. Night fishing for small mouth bass, croppie, white bass and walleye is a popular activity.
